"Gentlemen" Place Your Bets!

Where do the Chips fall for Grading Currency?

By Joseph M. Bissell

The history of "grading" has spoken to all of us familiar with the coin industry. Approximately 16 years ago when PCGS founded its operations there was a precarious cloud over the coin industry. Many dealers didn't want anything to do with Graded coins, for a multitude of reasons, some possibly self-motivated and some - just normal hesitations. Approx. 18 months latter NGC opened its doors and also started slabbing coins, and of course, a number of other companies have followed. The increased number of grading companies must have resulted, obviously, due to an increase market demand for slabbed coins. Currency Grading came into effect about 3 years ago, which has brought with it, new buyers into the marketplace along with a dramatic surge of enthusiasm.

There is now a NEW Currency Grading company slabbing notes in a newly Engineered **Hard Case Holder**, by **Currency Grading & Certification, Inc.**

True Rarities!

Do you know where they are?

By Bob Baker

MPC's... where are all the Gems???

Military Payment Certificates were issued out only to service men from 1946 to 1973 (which were withdrawn totally in 1973). These notes were issued starting with Series 461 and went to Series 701 (totalling 13 sets). These notes were issued to service men serving overseas in order to control the black market, which was to prevent the enemy from economically damaging the U.S if the notes were to fall in enemy hands. When the U.S. came out with a new series number (for example the 471) the preceeding series (461) became non-negotiable. This further explains some of the extreme rarities in the earlier series, since soldiers were unable or unwilling to hold a \$5 or \$10 Note.

These notes covered the end of World War II, through the Korean war and Vietnam. The elusiveness of these notes in Gem MS-65 and above are causing a surge in prices in all series. Specifically, when your looking for the higher denominations, such as the \$5 & \$10 dollar notes in Series 521, 541 and 591, you could literally look for a decade and not locate one note in Unc. Series 691 and 701 were two series that were unissued but have now slipped into public hands, with unknown quantities surfacing. The value of these notes

Joe Bissell (Emails to: sales@gradedcurrency.com)

the grading is done by veterans, each specializing in their field of expertise, with collective experience exceeding over 125 years. In addition, this company is grading a wide array of notes including: U.S. Large & Small size, Fractional notes, Military Payment Certificates (see right front cover) and now, ALL Foreign notes. The hard case holders allow the paper to breath through a ventilation design. The grading tabs allow for Comments by the graders to be included, such as: Great embossing, margin millimeter measurements, or a Population census of the notes available at the time of the grading, reflecting the rarity of the note (very helpful at shows). The notes are encapsulated in a very durable Crystal Styrene and Acrylic composite. The holders have tamper proof inter-locking mechanisms so if a note is "Cracked out" it's very evident. All the graded notes are entered into a Population report (including fractionals) giving the reader a wealth of info., thus being able to determine an educated decision on their purchases. Turn-around times range from Economy (16-30 days), all the way down to a One day turn-around when needed (available for most notes). The collectors / dealers submitting the notes remain anonymous to the graders, deflecting any possible biasness. Cross-overs are also available.

Graded notes certainly appear to bring in premium prices, possibly due to the comfort factor of buying a certified note or the protective design and overall appearance of the holder. Also, the new selling market over the internet is really dominated by Graded notes - especially in realizing "all the money." (cont. pg.11)

(obviously depending on availability) has been somewhat volatile due to the unknown quantities out there. These sets are currently selling for (when you can find one) around \$3,700 to \$4,000 in Gem.

When MPC's were determined to be spoiled (either during the printing process or post printing) they were replaced with new notes in order to maintain the numbering sequence. When the **Replacement** notes were issued, they were printed lacking the Suffix letter. The collector's demand for these notes is very high, realizing their extreme rarity. Since the soldiers had no distinguishing realization of replacements, they were spent and well circulated. True Gem replacements and the regular issues are both very hard to locate, now add the heightened interest in this field and the equation ends with skyrocketing prices for these Gems.

With this being said your in for a rare treat, Lyn Knight Auctions will be putting on the auction block in February 2002 at the Chicago Paper Money Expo (CPMX) the Leo May collection, containing the most Replacement notes ever sold publicly at one time (including 75 different types, along with multiple prints, which are recognized as being in print for the very first time), along with a complete set of the regular series.

Adding fuel to the fire in the MPC market, is the fact that for the very first time, these notes can now be Graded (slabbed) and recorded in the U.S. Currency's Population Reports. Thus, gaining the collectible a true reflection of what's really out there. For additional questions call Bob Baker (see ad on Back cover).

"PRICING, GRADING & POPULATION SUMMARY"

This is a "Retail Publication," and is designed to reflect current market prices. These **prices** are procured from many sources, including: Dealers, Internet auctions, previous auction houses "prices realized," striving to reflect current market prices. If the Note Type contains a range of Fr.#'s, then the listed price reflects the most common Fr.#. This publication is in NO way instructing or suggesting for its readers to purchase at these levels. **Grading** ranges from Very Good (MS 8) to Premium Gem (MS 68). The listed prices were gathered from both professionally graded and independently graded "sold" notes. We did denote the observation that prof. graded notes generally sold for higher prices than independently graded notes. A **Population Summary** column is listed for ea. Note Type, many times with a range of Fr.#'s. Example: Fr.#100-102 (1880 \$10 Legal Tender) shows 24-6-38 in the Population column-meaning there are 24 notes in **CU & up** for Fr.#100, 6 notes (in CU & up) for Fr.#101 & 38 notes (in CU & up) for Fr.#102. If you see +++ there are likely more out there than reported.

Granted Permission for the Friedberg numbering system (licensed) has been authorized by the Coin & Currency Institute, Inc.

VERY IMPORTANT!

**All Pricing Spreadsheets are
reflective of C.G.C.
Product only!**

These prices are the result of prices realized from sales of **C.G.C.** product, **NOT** raw notes and **NOT** notes in other slabbed holders!

You can NOT compare (realistically) C.G.C. prices realized with other notes (raw or graded by other companies) with similar expectations.

Recent EXAMPLES:

CGC –65 Bison sold for **\$5.5k**, competitors 65 offered at **\$3.3k**
CGC –66 Bison sold for **\$12.5k**, competitors 65 offered at **\$6.5k**
CGC – 65 \$1 Ed (fr.224) sold for **\$3.5k**, competitors 65 sold **\$2.2k**
CGC – 65 Chief (same fr.#) sold **\$4.3k**, competitors 65 sold **\$1.8k**
CGC – 65 \$500 '34a sold **\$4.2k**, competitors 65 sold for **\$2.4k**
CGC – 65 \$1,000 '34a sold for **\$9.5k** (ebay) competitors 65 **\$3.5k**
CGC – 65 1168 \$10 GC sold **\$3.5k**, competitors 65 sold for **\$1.8k**
CGC – 65 \$10 '28 Gold sold **\$1.9k**, competitors 65 sold for **\$1k**

(*examples go on endlessly, the point is not all grading services realize equal values (as in the coin industry), and figures should not used for raw or other slabbed product).

Let's Talk

“Gentlemen – Place Your Bets (cont.)”

Recently a \$500 1928 in MS-67 sold on ebay for \$14,300 and it previously sold last month for \$13,500. I was asked by several people what I thought this note would have sold for raw. I really felt like the note wouldn't have even reached \$7,000 raw. When it comes to gambling I always recommend not doing it with your investments, get your notes graded! For complete details you can log onto: CurrencyGradingCertification.com or email to: CGC@CurrencyGradingCertification.com or call (602) 493-4758 and order your Submission package today (see ad on back cover).

“MULE NOTES”

Don't Feel Like a Jackass.....

Many Collectors have long heard the term “Mule Notes” but don't know really what it means. The quick explanation is that the check number on either the obverse or reverse is larger than the other, this can mean that the front number is larger than the back check number and also the opposite is true. On one side the check number will be (micro) 0.6mm high and the other side (macro) will be 1.0 mm. The adoption of the Macro plate check numbers came into effect in 1938 and ceased in 1953. This alteration was of such importance to the Bureau of Engraving that they actually advanced Series designations on notes without signature combination changes. For example, the \$5 Silver certificates 1934 series was advanced to 1934A with no signature combo. change. The only difference was that the Macro plate check number size was increased (on Only one side) to 1.0 mm.

“WIN A FREE GRADED NOTE!!!”

This contest will end December 31st, 2001. The WINNER will receive a Graded...

1957B \$1 Silver Certificate in MS-66

Here's how to WIN... Write an article in the realm of Currency (U.S. or otherwise) approximately ½ page that's a “Point of Interest” or Educational and mail or email it to us (see addresses at top of inside cover), and we'll review the articles and announce the Winner in January's issue and put your name in for the ANNUAL **GRAND PRIZE**. The Grand Prize will be decided by the readers throughout the year 2002 and will be a culmination of donations by this publication and other dealers-put together into one Valuable note to be given away next year at Christmas-Good Luck

*****IT'S SHOW TIME!*****

??Knowledge Teaser??

Question: Who was the only President to enter the White House with a Phd. ????

Answer: Woodrow Wilson received his Doctorate in Political Science in 1886 from Johns Hopkins University, decades before entering the hard knocks of Washington.
