C.G.C.'s

"New Grading Diagrams on Tabs"

By Joseph M. Bissell, MBA

Visual Diagrams assist in specifics!

So many times collectors struggle to procure specific details about a note, specifics that are very pertinent to a potential purchase. Collectors and dealers alike have always inquired into the specifics about a note's attributes that they've submitted in for grading.

C.G.C. is always looking for ways to improve upon its service and submitter's requests, and it's accomplished just that! The reverse of each grade tab has long had a "comment" section where in certain instances specific attributes of a note are listed. This was found to be necessary when a note say had very nice even margins, but was going into a 64 holder (ChCu)

Testimonial

Goldline \$10 Million Discovery!

When Goldline decided to grade the "Atlantic Collection" it chose C.C.C. ! (See previous Gold Sheet issue for details of this fantastic Discovery). Independent Grading offers a "second opinion" that is helpful when acquiring a note or coin. Our clients appreciate the benefits of independent grading and C.G.C. 's Protective Holders. Goldline was impressed with C.G.C.'s service, confidentiality and professionalism

Thank you for all your help with the "Atlantic Collection!"

Joe Bissell (Emails to: sales@gradedcurrency.com)

We found it necessary to “explain why this was because submitters and prospective buyers would just assume that the grading company was being ultra conservative; when in fact the note had a corner tip fold (but was undetectable once under plastic). Hence, under the comments section it was listed, “corner tip fold upper left” etc...

Now, **CGC** has improved upon this process with a visual diagram of the note and actual lines or notations can be drawn right onto the diagram reflecting the note's specific attributes. This really gives the viewer an edge on “knowing the note!”

This has been done for many years in diamond certifications (reflecting a diagram with inclusions, etc...), but has never been done for Paper Money and is currently not being done for coins. The obvious reason for this is time constraints. Not every single note will have a Grading Diagram filled out, but pertinent ones will. For example if the note has 7 vertical folds and is graded out in a VF holder, it will not be filled out. However, if the note has a pressed out centerfold or a fold in another area, that is difficult to detect by the naked eye or under plastic, the Grading Diagram will be completed to allow the view to know exact specifics! Just another pioneering improvement by **C.G.C. !**

Perhaps not! Can you believe your eyes (see below), how is this possible, there never was a 1934 Gold Cert. issued. Right! There wasn't, but there was a few run off the presses!

I know you've never seen or heard of one, well neither did 99% of collectors, but low and behold there was one on Ebay, just this last month (November). We have the auction #, but of course after reporting this SCAM to Ebay the cancelled out the auction.

One of C.G.C.'s graders discovered this nice little listing, which went on to say, “Will sell nice new \$100 1934 Gold Cert. cheap for a fast sell!” Oh, yes, there were around 28 bidders, going fierce! We emailed the seller once this was brought to our attention and asked to buy the note outright (cont. pg. 12)

“PRICING, GRADING & POPULATION SUMMARY”

This is a “Retail Publication,” and is designed to reflect current market prices. These **prices** are procured from many sources, including: Dealers, Internet auctions, previous auction houses “prices realized,” striving to reflect current market prices. If the Note Type contains a range of Fr.#'s, then the listed price reflects the most common Fr.#. This publication is in NO way instructing or suggesting for its readers to purchase at these levels. **Grading** ranges from Very Good (MS 8) to Premium Gem (MS 68). The listed prices were gathered from both professionally graded and independently graded “sold” notes. We did denote the observation that prof. graded notes generally sold for higher prices than independently graded notes. A **Population Summary** column is listed for ea. Note Type, many times with a range of Fr.#'s. Example: Fr.#100-102 (1880 \$10 Legal Tender) shows 24-6-38 in the Population column-meaning there are 24 notes in **CU & up** for Fr.#100, 6 notes (in CU & up) for Fr.#101 & 38 notes (in CU & up) for Fr.#102. If you see +++ there are likely more out there than reported.

Let's Talk

“Internet Scams....Getting Worse!”

to find out where this individual procured the note from (and to authenticate it). He called us on our business line through a “Relay Service.” I know, never heard of this myself....till now. An operator actually called us and said that they would verbally read his messages to us as he typed them in from computer and then we verbally responded and they typed those responses back to him. This went on for almost an hour. Our first question, what's your name and can't we just call you? Mike, no, this is better, was his reply. On and on we went, as he diligently attempted to get us to “wire” him funds and he'd overnight the note. While I was on the phone our Grader said, “I got it!” He had indeed found this note on display (a scan) with the “San Francisco Federal Reserve Lobby,” which is located at: <http://www.frbsf.org/currency/stability/certs/1972.html>

Great work, while we kept him busy, we contacted ebay, since the auction was ready to close and there about 28 guys getting ready to get soaked out of a lot of money (you know the drill... they get the top bidder to send the money, then start contacting all under bidders with a story to get them to send funds since the bidder above them dropped out).

Another Scam, the saga continues, everyday!!!

Now, we had another complaint come in right behind this one filed by “Trusted Collections” and occurred on Yahoo.com. This is a sad by typical story indeed. **SENT THE MONEY AND NEVER RECEIVED ANYTHING!!!**

On June 26th, 2003 the owner of Trusted Collections sent \$1,400 to a yahoo seller for a Chief and \$2 1886 listed as Choice Au/Gem (whatever that means). TC did not want to send funds to a post office box but was worn down and did so. The seller even confirmed he received the funds (we have all the emails and names), he cashed the check and NEVER responded again! How can this happen, where do you turn? The auction company did nothing for the victim, who followed up with:

1.) Internet Fraud Center (2.) Federal Postal Inspector (3.) Federal Trade Commission (4.) Local Law Enfor.

It's over, the money is gone, that sick feeling in stomach arrives and you don't sleep, mad as Hell! Please be careful when purchasing from people we have no relationships with and come and go as quick as the wind!

“FAST FACTS.....learn something new!

Of course the only large size \$10 Gold Certificates were issued in 1907 and 1922, featuring Michael Hillegas. Most guys also know he was the 1st U.S. Treasurer from 1775 to 1789, but did you know he became very wealthy and had pretty well know best friend (Ben, Ben Franklin), who he's buried next to in Philadelphia, where the two permanently reside (near the Liberty Bell and Indpend. Hall). He made his fortune from both refining sugar and manufacturing iron. But, he didn't leave this earth a rich man, spent it all..... no, not on a new Ferrari and beach home in LaJolla, but on supporting the revolution (where he also spent part of the war as quartermaster). Keep your eyes out for a nice \$10 1907 (rare issue) or the 1922 Gold Note, it's a beauty!
