

VERY IMPORTANT!

**All Pricing Spreadsheets are
reflective of C.G.C.
Product only!**

These prices are the result of prices realized from sales of **C.G.C.** product, **NOT** raw notes and **NOT** notes in other slabbed holders!

You can NOT compare (realistically) C.G.C. prices realized with other notes (raw or graded by other companies) with similar expectations.

Recent EXAMPLES:

CGC –65 Bison sold for **\$5.5k**, competitors 65 offered at **\$3.3k**
CGC –66 Bison sold for **\$12.5k**, competitors 65 offered at **\$6.5k**
CGC – 65 \$1 Ed (fr.224) sold for **\$3.5k**, competitors 65 sold **\$2.2k**
CGC – 65 Chief (same fr.#) sold **\$4.3k**, competitors 65 sold **\$1.8k**
CGC – 65 \$500 '34a sold **\$4.2k**, competitors 65 sold for **\$2.4k**
CGC – 65 \$1,000 '34a sold for **\$9.5k** (ebay) competitors 65 **\$3.5k**
CGC – 65 1168 \$10 GC sold **\$3.5k**, competitors 65 sold for **\$1.8k**
CGC – 65 \$10 '28 Gold sold **\$1.9k**, competitors 65 sold for **\$1k**

(*examples go on endlessly, the point is not all grading services realize equal values (as in the coin industry), and figures should not used for raw or other slabbed product).

Pricing out the Market!

What are your notes worth?

There was a recent article in a numismatic publication (Bank Note Reporter – BNR) that we found extremely enlightening to most collectors and certainly hit the subject of pricing (and grading) **DEAD – ON!**

It discussed how the pricing in a competitive Newsletter price guide for Paper Money, and how the prices had fallen hopelessly off the deep end of reality for all grades (even in regards to wholesale pricing). There's a few variables to keep in mind here...

"Fr.247 1896 \$2 Educational"
Serial #2000 587

First, the **ONLY** price guide we are aware of for **certified paper money** is this newsletter (the Gold Sheet). Pricing for Certified paper money is very different from pricing for raw notes! Obviously **CERTIFIED** assets are worth more than non-authenticated or certified assets (just as in diamonds, works of art & other collectibles) .

In fact, pricing between grading services vary considerably. This is also true in coins. Not all grading

Joe Bissell (Emails to: sales@gradedcurrency.com)

“CGC receives literally dozens of calls each week from new and highly enthusiastic collectors and we really wanted to help educated them,” according to Joe Bissell (founder). To accomplish this, we created a one hour video (DVD) “Collecting & Investing in U.S. Paper Money” that will go over all aspects of the hobby / business.

We use to get hundreds of calls each month in regards to Grading questions and it was overwhelming, so CGC pioneered the first book and one hour video on “The Standard Guide for Grading Paper Money,” which is shelved at the **ANA library and used in major Universities** around the Country, and sold in over 14 Countries. This book & video outlined (for the first time) the point system and specifics for each grade category in efforts to alleviate the volumes of calls and questions.

We wanted to accomplish the same thing here, to have an educational source, not only for new collectors or investors but also for the advanced circle. This video covers enormous ground with **8 main chapters**: Introduction, What to Collect, Pricing strategies, liquidity that comes with certified grading, buying strategies, selling strategies, the marketplace & business opportunities and getting a jump start.

We believe, not only will this new and exciting educational tool alleviate many unanswered questions; but also motivate and educate new collectors that wouldn't otherwise feel confident or comfortable enough to enter the market. There are so many new investors entering the market, many with the same common questions (where do I buy from, where do I sell, how do I locate “real” prices & values, and how do I get started). **(Continued on Pg. 12)**

Have the same grading standards, hence the disparities

By tracking CGC's certified notes that have sold, the Gold sheet can record these prices realized and discern extrapolations of similar notes or grades that have sold.

This discussion is very important to the hobby (industry) because YOU really need to price out (value) your notes based on what they are, **not what they were sold to you as or what you'd like to believe they are.** You simply cannot compare a non-certified note's value to a certified note, not in the same league. The non-certified note may have been professionally processed and the condition enhanced to a higher grade appearance. Many collectors may feel that if they (personally) cannot see the pressed out centerfold that it simply does not exist. Well..... we cannot see other planets with our naked eye (or **untrained eye**) but they do indeed exist.

There are, indisputably, wide price disparities between coin grading companies /product. There are also several price guides available that literally reflect “separate” prices for some coin grading services than others. The market's confidence level for one product maybe much higher than for another, severely effecting prices.

These points are of the utmost importance when pricing out product. The value of an asset (I think we'd all agree) is what it will sell for on the open market at least once, if not twice (by non-biased buyers).

In closing, when your buying a raw note (or even a certified note by another grading co.), don't let a dealer or anyone steer you to the price spreadsheets in this publication (Gold Sheet), these prices are **ONLY** for **CGC Certified** material, period! More to come.....

“PRICING, GRADING & POPULATION SUMMARY”

This is a “Retail Publication,” and is designed to reflect current market prices. These **prices** are procured from many sources, including: Dealers, Internet auctions, previous auction houses “prices realized,” striving to reflect current market prices. If the Note Type contains a range of Fr.#'s, then the listed price reflects the most common Fr.#. This publication is in NO way instructing or suggesting for its readers to purchase at these levels. **Grading** ranges from Very Good (MS 8) to Premium Gem (MS 68). The listed prices were gathered from both professionally graded and independently graded “sold” notes. We did denote the observation that prof. graded notes generally sold for higher prices than independently graded notes. A **Population Summary** column is listed for ea. Note Type, many times with a range of Fr.#'s. Example: Fr.#100-102 (1880 \$10 Legal Tender) shows 24-6-38 in the Population column-meaning there are 24 notes in **CU & up** for Fr.#100, 6 notes (in CU & up) for Fr.#101 & 38 notes (in CU & up) for Fr.#102. If you see +++ there are likely more out there than reported.

Testimonial of the Month

"For years I wondered, when is there going to be a true grading and encapsulating service for bank note currency, like there is for coins with the quality of PCGS/WCC. Then about three years ago, one such service appeared, that service is C.G.C. Their grading is exceptionally the best I've ever seen. For instance, if they grade a note in GEM 60, 65, or 67, you can be rest assured that it is a true GEM in that grade. There is absolutely no fakes and especially no corner to folds whatsoever. They are by far the best graders I have seen in years. Also, I am very impressed with their honesty, integrity, and their great service. C.G.C. is what this hobby has needed for years. It's about time! Thank You C.G.C."

As this market and hobby expands (more like explodes) we're trying to keep up with the new demands of new collectors & investors and supply them with them educational tools necessary (as we'll as keep up with the ongoing educational needs in the years to come).

This DVD discusses the **Inside Story & Untold Secrets** of the Paper Money hobby / industry. These discussions will not only knock learning curves down from years down to days, but will save you hundreds if not tens of thousands of dollars in purchasing. Even the advanced circle (when viewing the DVD) attested that there's always things to learn or new ways of looking at something (new angles) and this DVD promotes that innovative drive in contriving new & exciting ideas.

The video (DVD) also shows dozens of beautiful notes throughout the one-hour span. The cost is \$75 retail or \$49 with the purchase of either the U.S. Paper Money Population Reports CD or the Grading guide/video, "The Standard Guide for Grading Paper Money". Testimonial!

Dear ANA,

I'm writing this letter in order to register a formal complaint against the wide-ranging practice of coin and Paper Money dealers of OVER GRADING their product. In particular, a dealer, and ANA member, Robert XXX Co. I purchased a Fr.88, 1907, WoodChopper note advertised as "GEM CU." I received this note on 3/26/04, and sent it to CGC (Att: Joe Bissell), in Phoenix, AZ. Joe Bissell called me and had graded it the same day it was received (3/31/04) to inform me that the note had been: bleached, washed and pressed. Plus the fact that he stopped counting the FOLDS (into the design) at 14 (fourteen)! Just a week or so before this incident I had the misfortune to have the same thing happen to me. This time it was advertised as a Fr.16 in XF and a Fr.18 in XF, from XXXX (very large dealer). I had also sent these notes to CGC for certification. Both notes came back in CGC-25 VF (low end VF) holders. We're talking several hundred dollars in the difference of grades. All of the above mentioned notes were returned for an attempted refund. Never received so much as an I'm sorry, oops, got caught being dishonest again! Sending notes to CGC has saved me quite a bit of money. Many dealers are in hopes of finding suckers with their ads and internet. As a collector I feel not only cheated, but violated by these greedy practices being done by many dealers around the Country. I understand well why they try to discredit (or not support) 3rd party grading. These dealers are destroying a wonderful, and relaxing, not to mention very interesting, and rewarding hobby. I have spoken to many other collectors around the Country who feel as I do about the down right criminal practices of some of these dealers. I feel you as the ANA can and should step in here and help the collectors before the hobby is completely destroyed by greed. The new collectors coming into the hobby with the introduction of the new generation currency, will be the meat on the table for these dealers, and by they time they find out what's happened (if they don't buy only certified notes) and that wont be able to do a darn thing about it because the dealers will long have retired and fishing on some 40 ft. yacht in Hawaii. The old saying "You get what you pay for!" doesn't even work with these guys. It only means you get a higher priced piece of JUNK! They advertise as **Gem & Choice** but sell circulated processed trash. doctored to look new. Please HELP the hobby-do something! **Dave Jackson. FL.**
