"First Time Owner" of C.G.C. product!

By Adrian Crane, Atty.

I just purchased a set of three educational notes, the one dollar in Superb Gem 66, the two dollar in Gem 65 and the five also in Gem 65, all graded by C.G.C.

These are the first notes that I've purchased that have been graded and holdered by C.G.C. I

GRANT/SHERMANS SPECIMENS

The Real Sleepers Of the Fractional Currency Market!

By: Robert J. Kravitz

Collectors are now realizing that Fractional Currency is a good buy, especially compared to the high prices being realized for large size notes. A 25 note Fractional currency type set (23 regular issues and 2 Grant/Sherman specimens both a front and a reverse) can be put together relatively inexpensively in ChCu for less than \$10k. Many new collectors are getting the fractional collecting bug.

Also, many new dealers are now stocking fractionals. Many Fractional notes are still under valued based on scarcity and rarity. Exceptional begins include: Perforated notes, Fiber paper notes and Grant/Sherman specimen notes. The autographed (hand signed) Grant/Sherman notes, seem to me, to be one of the most overlooked Fractional Currency values!

Not all Grant/Sherman notes are autographed signatures, but are still scarce. For example, only 9,016 notes of all types were printed. As of 1884 only 3,513 were still outstanding. The notes were printed on very thin paper, which if were mishandled over the last 135 years would make the note an Au at best... therefore, many of the (cont. page 12)

haven't been avoiding them, I just haven't had many opportunities to buy them and I haven't got out of my way to hunt them up because quite frankly, I wanted to wait awhile and see what kind of a company they were going to become. Well, I have yet to hear anything bad about C.G.C., and if the quality of these three notes is any indication of their grading, I think they will be fantastic for buyers, one of which I am! Each of these pieces is very conservatively graded.

Additionally, the holders are or very, very high quality and should do a great job not only of protecting the note but also in giving the pieces a substantial feel. Having two grading services increases competition, and competition sharpens the quality and service of the competitors, and that will be good for all concerned; collectors, investors and dealers! Good luck on your searches.....

Wide margin notes over the years have been trimmed down to Narrow Margin notes (usually to remove a corner tip fold or two). The hand signed notes (narrow or wide margin) are susceptible to getting burn holes in the signatures from the acid in the ink or cracking in the thin paper. Also, many notes (two fronts and two backs), are still on shields. How many Grant/Sherman notes can still be left on in ChCu or Gem today?!

Here are eleven different types:

1 & 2: Fr. 1272sp front printed sig.'s (Colby / Spinner), Narrow and Wide Margin Notes.

3 & 4: Fr.1272sp Green back Narrow and Wide Margin Notes.

5: Fr.1273sp Front "Auto. Sig's" Colby/Spinner Narrow Margin only (no wide margins known). These are found only on the green and pink shields. Only a few known with no trace of ever being mounted on a shield (no glue remnants). Maybe 60 known total. This includes 12 on green shields and 25 to 27 on pink shields. There's only one or two Gems known! Most of them are cut tight on the left or right side.

6 & 7: Fr.1274sp Front Auto. Sig's (Jeffries/Spinner) both Narrow and Wide margins.

8 & 9: Fr.1275sp Front Auto Sig's (Allison/Spinner) both Narrow and Wide margins.

10 & 11: Fr.1273-75sp Red Back both Narrow and Wide margin notes.

"PRICING, GRADING & POPULATION SUMMARY"

This is a "Retail Publication," and is designed to reflect current market prices. These **prices** are procured from many sources, including: Dealers, Internet auctions, previous auction houses "prices realized," striving to reflect current market prices. If the Note Type contains a range of Fr.#'s, then the listed price reflects the most common Fr.#. This publication is in NO way instructing or suggesting for its readers to purchase at these levels. **Grading** ranges from Very Good (MS 8) to Premium Gem (MS 68). The listed prices were gathered from both professionally graded and independently graded "sold" notes. We did denote the observation that prof. graded notes generally sold for higher prices than independently graded notes. A **Population Summary** column is listed for ea. Note Type, many times with a range of Fr.#'s. Example: Fr.#100-102 (1880 \$10 Legal Tender) shows 24-6-38 in the Population column-meaning there are 24 notes in **CU & up** for Fr.#100, 6 notes (in CU & up) for Fr.#101 & 38 notes (in CU & up) for Fr.#102. If you see +++ there are likely more out there than reported.

Granted Permission for the Friedberg numbering system (licensed) has been authorized by the Coin & Currency Institute, Inc.

This SPECTACULAR example of a Fr.#1550 is sure to meet even the most discriminate collectors taste. Enormous boardwalk margins. Bid or BIN \$2,495!

This outrageously near perfect MPC 681 \$10 Army's Special Forces:CH21 Shawnee Helicopter & M48AM Tank are MUST Haves! Bid or Buy it now @ \$750.

Wow! A Fr.1704 1934C \$10 STAR! nicely centered, only a molecule away from a 67. Razor sharp corners, deep punch through Embossing, bid or BIN \$1,495.

An opportunity you may have only ONCE! This very elusive MPC 611 \$5 Gem CGC-65 is about as rare as they come, I'd hurry before the seller takes an offer!

This website (and auction area) is here for EVERYONE to sell their notes. There are many more notes (and photo's) also on page 13. VERY IMPORTANT!

**All Pricing Spreadsheets are
reflective of C.G.C.

You can NOT compare (realistically) C.G.C. prices realized with other notes (raw or graded by other companies) with similar expectations.

Recent EXAMPLES:

Let's Talk

“GRANT/SHERMAN SPECIMENS” (cont. from pg. 2)

(if any can be called common) are the Fr.1272sp Narrow margin Fronts and Narrow margin Green Backs. Also, the Narrow margin Red Backs (Fr.1273-75sp). The Fr.1274sp and Fr.1275sp narrow margin fronts are scarce. They come up in auctions maybe 4 or 5 times per year. Most are mounted on shields with normal glue remnants (or mounting marks on the back). The few Gems that do come up are from cut down wide margins. This is one of the reasons why wide margin Fr.1274sp and Fr.1275sp fronts are very scarce in Gem condition. Being so rare, only two or three come up for sale (in auction) each year.

The wide margin Fr.1273-75sp Red Backs are also very scarce with Gems being extremely rare! I may have had the opportunity to buy only 2 Gem Wide margin Red Backs per year. The Fr.1273sp Narrow margin Fronts are rare in any condition. Most are still on shields. Many of the ones that do come up for sale show signs of being removed from a shield. There might only be 10 to 15 Unc.'s or better that are even known. Maybe one or two (at the most) come up for auction each year, if that.

Most of the Unc. or better Grant/Sherman notes are just staying in collections. Consequently, no that may Gems are coming up for sale. With less and less supply coming available, and the ever increasing demand, prices have nowhere to go but up! The prices for Grant/Sherman specimens have just past the peak prices of 1981. They will continue to go up as more and more type sets are put together. Soon all the the Gem Grant/Shermans will be in collections. With many new and young collectors these notes will not be available for many years to come. Do not wait! Buy your Grant/Sherman notes now before they are all gone! If you'd like to discuss specimens or any Fractions feel free to contact me at (916) 687-7219.

***** Low Shows & Ailing Auctions *****

It's always interesting to see how shows and auctions perform, almost utilizing the results as a guage of the market. Is this really a true and accurate gauge? Perhaps in the past it was, in the "Ol days." In the era of computer technology, auctions are going on right now, this very minute, and internet auctions and bidders are gaining steam, tremendous momentum. So, with this being said, what's going to happen with "shows?" Are they a thing of the past, do we really need them anymore? I have been hearing "Oh, this was a slow show" or "boy, that auction really just had junk in it." Well, perhaps people don't need to wait three to six months from now for the next large show or auction. It would seem that you can now pretty much find what you need through the internet sites and auctions. If this is true, can this be a predominant factor in future show slow downs, I think so. Is it getting tougher and tougher for auction houses to get fresh and original material (not notes people want to anonymously want to dump), it would appear so. One auction house has now gone to printing its catalog in black in white (and specifically mentions in the opening that it has done so in response to budgetary constraints. Are people not wanting to wait to list their premium product for the next large auction or show, and then wait months longer for funds and pay high fees? Has the internet provided a medium that is closing in on the traditionally outlet sources for selling product? All good questions we received, the future will be very interesting as it unfolds and new voids are filled and altered, let's discuss again soon!
