**All Pricing Spreadsheets are
reflective of C.G.C.
Product only!**

These prices are the result of prices realized from sales of **C.G.C.** product, **NOT** raw notes and **NOT** notes in other slabbed holders!

You can NOT compare (realistically) C.G.C. prices realized with other notes (raw or graded by other companies) with similar expectations.

Recent EXAMPLES:

CGC –65 Bison sold for **\$5.5k**, competitors 65 offered at **\$3.3k**
CGC –66 Bison sold for **\$12.5k**, competitors 65 offered at **\$6.5k**
CGC – 65 \$1 Ed (fr.224) sold for **\$3.5k**, competitors 65 sold **\$2.2k**
CGC – 65 Chief (same fr.#) sold **\$4.3k**, competitors 65 sold **\$1.8k**
CGC – 65 \$500 '34a sold **\$4.2k**, competitors 65 sold for **\$2.4k**
CGC – 65 \$1,000 '34a sold for **\$9.5k** (ebay) competitors 65 **\$3.5k**
CGC – 65 1168 \$10 GC sold **\$3.5k**, competitors 65 sold for **\$1.8k**
CGC – 65 \$10 '28 Gold sold **\$1.9k**, competitors 65 sold for **\$1k**

(*examples go on endlessly, the point is not all grading services realize equal values (as in the coin industry), and figures should not used for raw or other slabbed product).

By Joseph M. Bissell, MBA

C.G.C. is again, pioneering into uncharted waters by rolling out a new **"FREE"** service that has been in strong demand, **"Registry Sets."** For so long, collectors have strived (putting it mildly), more like, saved and worked with all their resources to acquire

\$Nex Gen\$

New Collectors generated!

To quote the founder of PCGS, "I think this will be great for collectible currency, much as new designs for the statehood quarters have stimulated the rare coin market."

I won't take any space discussing the new design features of the NexGen notes (there's been a plethora of articles covering it). I'd like to discuss the effects it may have on the collection of Paper Money.

It's been almost 135 years since this country has printed multi-colored paper money (background colors). The issue of 1869 (below)

What is perhaps most exciting about the background colors of the NexGen notes is that each of the denominations will have different background coloring. The \$20 2003 notes (issued out this Oct.) will have Peach, Green & Blue. The \$50's will be distributed in 2004 and the \$100's in 2005 (unknown colors for the \$50 and \$100 at this time). The production of the \$5 & \$10's have not been confirmed or decided as of yet. However, all the backs of

the Finest the World has to offer – literally!

We're so excited to deliver this service to our collectors, it seems so natural.... The coin industry has been doing it for years. Not everyone can go to Paper Money shows to view such exquisite material, now they don't have to! They can enjoy the Heritage, History and beauty from the comforts of their own home!

Fr.2404 \$50 1928 Gold in CGC-66 Pop Top 1/0!

Registry Set also includes: \$10 CGC-66, \$20 CGC-66,
\$100 CGC-65

The categories will be vast, not only by type, but also by series and at times, just by Friedberg (cont. pg.12)

each denomination will remain "Green Backs."

Obviously the driving force of these newly designed notes is to drive down counterfeiting efforts. An interesting statistic is that in 1865 approx. 33% of all US notes were counterfeit, compared to .01 to .02% in today's market (2 out of 10,000 notes). Not bad, you may be thinking, but consider the future of our paper money if no improvements were done. Approx. 40% of all counterfeited notes have been accomplished through digital mastery (basically technology). With 2/3 of all US currency held outside the US you could imagine the playground of counterfeiting that was in the works.

I've always said and believed that redesigned paper money (including aesthetic beauty enhancements) could very well explode the paper money market.....how?

Statehood quarters, quite simply increased the interest levels of Americans and drove in tens (if not hundreds) of thousands of new collectors. Once their statehood quarter collection was complete, they moved onward or actually backwards into the historically past of America. Now.... it's paper money time!

"PRICING, GRADING & POPULATION SUMMARY"

This is a "Retail Publication," and is designed to reflect current market prices. These prices are procured from many sources, including: Dealers, Internet auctions, previous auction houses "prices realized," striving to reflect current market prices. If the Note Type contains a range of Fr.#'s, then the listed price reflects the most common Fr.#. This publication is in NO way instructing or suggesting for its readers to purchase at these levels. Grading ranges from Very Good (MS 8) to Premium Gem (MS 68). The listed prices were gathered from both professionally graded and independently graded "sold" notes. We did denote the observation that prof. graded notes generally sold for higher prices than independently graded notes. A Population Summary column is listed for ea. Note Type, many times with a range of Fr.#'s.

Example: Fr.#100-102 (1880 \$10 Legal Tender) shows 24-6-38 in the Population column-meaning there are 24 notes in CU & up for Fr.#100, 6 notes (in CU & up) for Fr.#101 & 38 notes (in CU & up) for Fr.#102. If you see +++ there are likely more out there than reported.
